Circular No. 42/IRDA/ACTL/EM/2008-09

13th March 2009.

To

All the Life Insurance Companies.

Sub: Expense management of life insurance companies.

As indicated on a number of occasions, expenditure management is very crucial for the life insurance industry especially at this juncture, in order to procure durable business and position them on a strong footing. In this context, payments made to the intermediaries, other than individual agents, occupy an important position. Hence life insurers are required to submit the following, starting from the financial year ending March 31, 2009.

- The life insurer must give the details of all the payments made by the company, during the year (April-March), to all intermediaries, except individual agents in a separate table, as given in the Proforma enclosed. This table must be sent along with the Appointed Actuaries Report.
- This table must also show all payments made to any other party, related to the intermediaries mentioned above. This table should also indicate the total amount of business procured through them during the period of reference.
- The definition of related parties mentioned above should be in conformity with the Accounting standards of ICAI and Companies Act.
- This certificate will be jointly signed by the CEO, CFO and Compliance Officer.

The IRDA reserves the right to ask external auditors of the life insurers to certify these statements.
